

Greetings everyone,

First, I want to say thank you all so much for what you do and all the contributions that you make to the Green Party of Michigan.

The treasurer report as of September 1, 2018 has been uploaded to our website. It includes donations and expenses where cash has physically passed through our bank account. I want everyone to know, however, that this is not a complete list of all the donations and expenses that our party has incurred. There are many individual members who contribute to the party in their own way. When you buy something directly for the benefit of the party it is called an In Kind Contribution. It is just as important to report these expenses and contributions as required by the State of Michigan.

I have received a few receipts from several individuals that have spent money on behalf of the party, but I know that there are more out there. I want to encourage anyone who has done this in all of 2018 please send me a receipt or invoice so I can make sure that it gets reported. I will also add an "In Kind Donations" section to the next treasurer report.

Please feel free to contact me preferably via text or email (put "In Kind Donation" in the subject line) to verify that I am aware of your contributions in 2018 . Thank you again for all you do.
