We've had a few extra expenses recently as well as a great deal of time and energy spent working towards getting our tax-exempt account with the USPS. I am pleased to announce that we have achieved our goal, and have successfully sent our first tray of bulk mail to a group of over 300 GPMI members at an average price of \$0.16 per letter (prices vary per destination). Many hours were spent at the bulk mailing center learning how to use the USPS software and gather documents to file our application, but I believe it will benefit our party in the long run.
